2 Overview sessions

General Format:

- Presentation: 20 minutes
- Discussant Feedback: 5 minutes
- Audience Discussion: 5 minutes

Guidelines for Presenters: Given the 20-minute constraint, focus on presenting the core aspects of your research. Avoid delving too deeply into details. Prioritise clarity and conciseness, highlighting the most important parts of your paper.

Recommendations for Discussants: Your role is crucial in providing a comprehensive critique that assists authors in refining their research. Offer constructive feedback, emphasising both the paper's merits and areas needing improvements. Additionally, put forth thought-provoking questions for the presenter's reflection.

Session 1: Covid 19: Vaccination and policy evaluation

1. Price Sensitivity and Heterogeneity in Vaccine Take-up: Evidence from an HPV Vaccine Program

Presenter: Marius Opstrup Morthorst; discussant: Lynn Ashley Morgan

2. Policy Evaluation with Nonlinear Trended Outcomes: COVID-19 Vaccination Rates in the US

Presenter: Lynn Ashley Morgan; discussant: Kevin Kloiber

3. Social Return on Investment of a home exercise programme for people with early dementia comparing in-person and blended delivery before and during the COVID-19 pandemic

Presenter: Pim Doungsong; discussant: Zhen Long

Session 2: Health Production and Medical Decision-Making

1. Interactions matter: how does combining physician labour and diagnostic imaging affect the production of health?

Presenter: Stephenson Strobel; discussant: Maria Hofbauer Pérez

2. Improving Risk Assessment and Treatment Choice in Medical Decision Making using Risk Assessment Tools

Presenter: Maria Hofbauer Pérez; discussant: Stephenson Strobel

Session 3: Education and Development Outcomes

1. Educational performance of left behind children in China

Presenter: Zhen Long; discussant: Pim Doungsong

2. Can education compensate for the disadvantages of the gene lottery? On the complicated interaction of education and genes in their effect on old-age cognition

Presenter: Johannes Hollenbach; discussant: Marius Opstrup Morthorst

3. Testing identification in mediation and dynamic treatment models

Presenter: Kevin Kloiber; discussant: Johannes Hollenbach

Session 4: Labour, Employment, and Well-Being

1. The long-term impact of maternal leave duration on smoking behavior
Presenter: Sonja Spitzer; discussant: Daniel Banko-Ferran
2. When Work Gets in the Way of Well-Being: Working Time Regulations and Changes to Time Use Behavior
Presenter: Daniel Banko-Ferran; discussant: Kai Miele
3. Evading the Mental Burden of Job Loss
Presenter: Kai Miele; discussant: Sonja Spitzer
